

TEKULA HASHWITH REDDY

B.Tech CSE (AI & ML) • KMIT, Hyderabad
+91-9381507664 • tekulashwith@gmail.com • LinkedIn • GitHub • LeetCode

PROFESSIONAL SUMMARY

Computer Science undergraduate (AI & ML) with a strong foundation in Core Java, object-oriented programming, data structures, and backend development. Hands-on experience building scalable applications, REST APIs, and structured workflows through real-world projects. Hardworking and highly focused, with strong analytical and problem-solving skills, a commitment to writing clean, maintainable code, and eagerness to contribute effectively in an Agile product development environment.

TECHNICAL SKILLS

Core Java	OOPs, Collections Framework, Exception Handling, Data Structures & Algorithms
Backend	Node.js, Express.js, Flask, REST APIs, Socket.IO
Frontend	React.js, HTML5, CSS3, JavaScript (ES6+)
Databases	MongoDB, SQL, Redis (caching & session management)
AI / ML	ANN, CNN, RNN, Scikit-learn, TensorFlow, Pandas, NumPy, Matplotlib
Tools	Git, GitHub, Docker
Languages	Java, Python, JavaScript, C, C++, SQL

PROJECTS

AI Customer Support Ecosystem | Flask · React.js · Google Gemini AI · Redis · Socket.IO · MongoDB

- ▶ Architected a hybrid AI-human support platform with Google Gemini AI resolving Tier-1 queries autonomously, reducing agent load significantly.
- ▶ Built real-time escalation pipeline using Socket.IO and Redis-backed sessions for low-latency, high-throughput concurrent connections.
- ▶ Designed RESTful Flask APIs with clean separation of concerns, modular architecture and structured error handling.

Asset Management System (AMS) | React.js · Node.js · Express.js · MongoDB (MERN)

- ▶ Built full-stack MERN app digitising enterprise inventory tracking via QR-code integration, eliminating manual data-entry errors.
- ▶ Designed multi-tier role-based approval workflow (Employee → HOD → Admin) securing the asset request lifecycle end-to-end.
- ▶ Implemented MVC architecture with real-time admin dashboards for asset distribution and maintenance monitoring.

IPL Match Prediction System | Python · Keras · Scikit-learn · React.js

- ▶ Trained a Deep Learning (ANN) model on historical IPL data using feature engineering and EDA to predict match outcomes.
- ▶ Deployed interactive React dashboard for live win-probability visualisation and team analytics for end users.

EDUCATION

B.Tech – CSE (Artificial Intelligence & Machine Learning) — 2023 – Present

Keshav Memorial Institute of Technology, Hyderabad | CGPA: 8.4 / 10.0

Intermediate – MPC (Class XII) — 2021 – 2023

Sarath Junior College | 96.2%

Class X – ICSE Board — 2021

Sri Sai Public School | 89.0%

ACHIEVEMENTS & EXTRACURRICULARS

- ▶ District-level competitive Volleyball player – strong team leadership, coordination and performance under pressure.
- ▶ High academic performer: 96.2% in Class XII, 89% in Class X, and 8.4 CGPA in undergraduate studies.
- ▶ Built three production-quality projects spanning AI, real-time systems, and full-stack development, demonstrating initiative beyond coursework.
